

PIANO LESSONS

**Offered by Joyce Parmentier, BM, MA, MT-BC
623-444-6761**

WELCOME students, children and adults.

Some of you may have children who have never explored a desire to play the piano. Others may have children who are continuing to study piano. And possibly there may be some parents out there who would love to fulfill a childhood longing to have taken piano lessons in order to be able to enjoy themselves and to encourage their children's musicality. Lessons will be available before school and if requested, one afternoon per week.

The rates I am suggesting for the three groups I mention above follow.

First time piano students: \$ 15.00 – private lesson –20 - 30 minutes per session depending on the concentration level of the child. (This is a reduced rate for beginners only for the fall semester.) This enables the child time to explore her/his stated interest and to determine her/his level of commitment needed to study piano.

**Continuing piano students: \$20.00 – ½ hour private lesson
\$35.00 - 1 full hour private lesson
(Financial consideration available for 2 or more students in a family)**

**Adult piano students: \$20.00 – ½ hour private lesson
\$35.00 - 1 full hour private lesson**

STATEMENT OF PURPOSE: It is my intention to share my own personal love of music and joy of playing with all whom I teach. I believe that each person comes with gifts of different natures and these gifts can be individually addressed to bring out the best in that person. Additionally, I am degreed and board certified in the field of Music Therapy which serves as an added dimension to my teaching perspective. The Holy Spirit is my partner in all my teaching endeavors.
